Admin Note - General Administrative Note encounter performed at Health Services.

**Administrative Notes:**

**ADMINISTRATIVE NOTE 1**      **Provider:** Edinger, Andrew MD/CD

I received word that Inmate Chambers's total knee replacement was being put on hold because of his dental problem. Inmate Chambers has 2 teeth which are infected/abscessed. He is refusing dental extraction for these teeth. He has 6 other teeth with caries which place him at risk for additional dental infections. Given the nature of this, he is at higher risk for post-op hardware infections with a total joint replacement. Central office has denied his transfer on these grounds.

I went to Inmate Chamber's cell to discuss this with him. He became upset and requested a copy of this note. He stated that he would be filing a lawsuit against the BOP for refusing his TKR. I told him that he was not being refused the surgery, but rather that his surgery was being delayed until his teeth were fixed.

It is my understanding that he has been seen by two dentists who have recommending extractions for his infected teeth. I was informed that he has been refusing this unless he has a guarantee that he would receive prosthetic implants. He is aware that this is not BOP policy.

I performed a search of the medical literature. A 2013 Consensus panel on prosthetic joint replacements did concur with screening patients for active dental infection. There are no prospective studies indicating that this definitely leads to prosthetic joint infection. However, as this is an elective procedure as compared to an emergency procedure, it makes good clinical sense to treat and eliminate this risk before proceeding with joint replacement.

At this point, I am placing a hold on his surgery given that he may be at increased risk of prosthetic hardware infection. It is my hope that he will reconsider his dental status in light of this new finding.

**ADMINISTRATIVE REMEDY RESPONSE**

This is in response to your Request for Administrative Remedy received October 10, 2018, wherein you allege dental staff have fabricated a medical issue in efforts to deny transfer for bilateral knee surgery.

A thorough review of this matter reveals you are receiving appropriate medical care in accordance to your clinical assignments. Based on medical record review your bi-lateral knee surgery was approved. However, Medical Designations denied/delayed the transfer due to moderately infected teeth, which are avenues for post-surgical complications and/or systemic infections.

Once your dental issues are resolved and no longer post a surgical concern you will be resubmitted for surgery. If you feel your condition has changed or worsened, sign up for daily sick call to be evaluated by your Primary Care Provider.

Based on the above findings, your request for Administrative Remedy is denied.

If you are dissatisfied with this response, you may appeal to the Regional Director, United States Federal Bureau of Prisons, Northeast Regional Office, United States Customs House-Seventh Floor, Second and Chestnut Streets, Philadelphia, PA 19106, within twenty (20) calendar days from the date of this response.
